

If I Had \$1,000,000

It is like a dream-come-true for most people. You have just been given \$1,000,000. You don't have to pay taxes, give any to charities, etc. But there is one catch. You must spend it. So, what will you buy? Now remember, you only have \$1,000,000 so you do have to be a little careful not to overspend.

Make a list of the items you would buy. Include several (4-5) sentences explaining your choice. Also, include what each item would cost.

Example:

1. A brand-new GMC Yukon Denali Hybrid. This Denali would be black with shiny black wheels. Inside, I would want grey leather seats. The seats would most definitely be heated in front for me, and in back for my kids. (No one likes a cold rear!) It would also have a great stereo system to drive Brad crazy with satellite radio and an ipod input. Finally, I would want it to have one of those built-in computerized GPS systems so I would never be lost again. Cost: \$80,000.
