

# What Others Say About Me

Most of us have a pretty good idea of who we are, what we like, and how we act. But, it is sometimes interesting to hear and see what others think. For this assignment, interview 20-30 friends, family members, teachers, etc. Ask each to write 3-4 sentences about you. These sentences could be about your personality, why you are a good friend, your best traits, or even about good times you have shared together.
